INTRODUCTION

R. L. POLK & CO., publishers of the San Jose City Directory, as well as more than 700 other city, county, state and national directories, present to subscribers and the general public, this, the 1931 edition of the San Jose Directory, which also includes directories of Los Gatos, Santa Clara and Santa Clara County, together with a directory of the rural free delivery box holders on routes which are pivotal from the San Jose and Santa Clara Post Offices.

Confidence in the continued growth of San Jose's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting San Jose to the world.

The enviable place occupied by R. L. POLK & CO'S. directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the San Jose Directory will fulfill its mission as a source of authentic information pertaining to the community.

POPULATION

The estimated population of San Jose is 76,776, based on the number of individuals' names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory.

SEVEN MAJOR DEPARTMENTS

The several essential departments are arranged in the following order:

THE BUYERS' GUIDE, pages 17 to 64, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of San Jose. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like the San Jose and Santa Clara County district, the necessity of having this kind of information immediately available, is very great and, frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for San Jose is included in pages 65 to 530. A similar list for Los Gatos is contained in pages 859 to 885; Santa Clara, pages 935 to 971, and Santa Clara County, pages 807 to 1015.

THE DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES, AND STREET AND AVENUE GUIDE for San Jose covers pages 531 to 697. In this section the names of the streets and avenues are arranged in alphabetical order and showing the intersecting streets; the residences and business houses are arranged numerically under the name of each street and avenue, and the names

INTRODUCTION—Continued

of householders and business concerns are placed opposite the numbers. Home property ownership is indicated by the character (o), placed immediately after the name of the householder. A similar guide for Los Gatos is contained in pages 887 to 897; and for Santa Clara in pages 973 to 987.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 699 to 806. This department lists the various manufacturing, mercantile and professional interests of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE SANTA CLARA COUNTY DIRECTORY, including the small towns of the county, arranged in alphabetical order, covers pages 807 to 1015.

THE RURAL ROUTES DIRECTORY, pages 1017 to 1051, includes the box holders on the rural routes served by the San Jose, Santa Clara, Gilroy and Los Gatos Post Offices.

THE NUMERICAL TELEPHONE DIRECTORY for San Jose is given in pages 1053 to 1128; Los Gatos, pages 1129 to 1135, and Santa Clara, pages 1135 to 1141.

COMMUNITY PUBLICITY

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of San Jose and vicinity, for business men, everywhere, realize that the city directory represents a community as it really is.

THE SAN JOSE DIRECTORY LIBRARY

Through the courtesy of the publishers of the San Jose City Directory, a Directory Library is maintained in the offices of the San Jose Chamber of Commerce, for free reference by the general public. This is one of the 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO. OF CALIFORNIA
Publishers

SAN JOSE STATISTICAL REVIEW

Name of City—San Jose, California.

Slogan or sub-phrase—The Garden City.

Form of Government—City Manager.

Population—57,547 in city limits (Government); 75,010 in immediate contiguous territory.

Area—12 square miles within city limits; 20 miles city as a whole.

Altitude—100 feet.

Assessed valuation—\$44,720,885.00, with \$5.61 per \$100.00 tax.

White population is 99%.

Colored population is 1%.

Number of all males, over 21 years of age, 22,960; and of all females, over 21 years of age, 24,730.

Native born population is 80% of whole population.

Predominating nationalities in city are Italian, German, Irish, English, Canadians of the 20,000 foreign born or of foreign parents.

Parks number 11 with 739 acres, valued at \$627,524.15.

City's bonded debt is \$1,137,125.00.

Financial—8 banks, with total deposits of \$36,062,179 (1929), resources \$39,031,520, and clearings of \$190,592,949.91 (1929) annually. 8 savings banks with \$24,000,952 total deposits (1929). 8 building and loan associations, \$54,352,861 in resources, April 1, 1930.

Post Office receipts of \$385,530.72.

Telephones in service—20,754 (1930).

Church buildings—46.

Building and Construction—Value of building permits \$2,468,200 (1929), with 939 new dwelling units constructed this year.

Number of homes—19,500, with about 75% owned.

Industry—Number of establishments 466, employing 15,000 men and 10,000 women, paying wages \$10,750,000 annually, and having products valued at \$60,000,000 annually.

Trade—Territory (Retail) serves 247,304 people within the trading area covering a radius of 40 miles—4 counties.

Hotels—There are 4 first-class hotels, with total of 705 rooms. Newest hotel just completed.

City served by two railroads.

Amusements—Largest theatre or auditorium seats 2000 people. There are 8 theatres, with a total seating capacity of 9,300 people.

Education—Number of schools 16, including 1 high, 2 junior high schools, 3 parochial and diocesan schools. Number of pupils in public schools 12,000. Value of all school property, private and public, approximately \$6,000,000.

There are 257,000 volumes in the libraries of the city.

City Statistics—Total street mileage 180, with 120 miles paved. Miles of sewers, 100; electric street railway, 41. Capacity of water works (private), 21,500,000 gallons; storage of 270,000,000 gallons. Fire department employs 72 men with following equipment: 2 autos, 3 engines, 9 hose and chemical wagons, 1 hook and ladder truck, in 9 station houses. Police department has 43 men with 1 station.

SAN JOSE FACTS AND HISTORY

Supplied by the

SAN JOSE CHAMBER OF COMMERCE

SAN JOSE

The Central City of the Famous Santa Clara Valley

SAN JOSE California, the oldest pueblo in California, founded November 29, 1777, now a modern city of 78,000 population, is the county seat of Santa Clara County. It is located 50 miles southerly from San Francisco, 42 miles from Oakland, and 9 miles from the southern arm of San Francisco Bay, and it occupies the position of central city of the greatest fruit canning and dried fruit packing center in the world. It is one of the four largest cities in the Bay district, and as it lies within the San Francisco metropolitan area, it shares with those cities the opportunities for expansion and development that exist in the Bay region, in addition to its own special local advantages.

San Jose has been built up from the native resources of Santa Clara Valley, practically all of which is comprised within the county lines. There are in the county 1305 square miles, 835,200 acres, of which 130,000 acres are in orchards, vineyards and berries; in canning and other vegetables, 20,000 acres; in cereals, 50,000 acres; in feed farms, 2000 acres; poultry, beef cattle, thoroughbred cattle, thoroughbred horses, dairy and general farms are numerous; there are many fruit and flower nurseries in the valley, the largest rose nursery on the coast being located near San Jose; for half a century cheese has been an important product of the Gilroy section; and in minerals, vast quantities of quicksilver, manganese and magnesite are exported; a practically inexhaustible deposit of fertilizing material several miles south of San Jose is being worked commercially on a large scale, and the county has an abundant supply of brick clay and of suitable quarries for road construction. The mountain range on the west side of the valley is well timbered with second-growth redwood, oak, madrono and other kinds of trees, and there are many oaks and pines in the Mt. Hamilton range on the east. The valley is 60 miles in length and has an average width of 20 miles.

Santa Clara Valley has an equable climate, free from extremes of cold or heat: The normal mean annual temperature at San Jose, covering a period of 14 years, as officially reported by E. S. Nichols, local meteorologist, U. S. Weather Bureau, was 57.3 degrees; mean maximum, 68.1; mean minimum, 45.1; precipitation, 16.79 inches; relative humidity, 58; wind (velocity in miles per hour), 5.7; sunshine (per cent of possible duration), 72; clear, 220 days; partly cloudy, 76 days; cloudy with rain (of .01 inch or more), 63 days; a maximum temperature, 90 degrees or above, 12 days; minimum temperature, 32 or below, 17 days. The number of days with a maximum temperature above 90 degrees are very few, and there are also a very few with minimum below 32. The equable climate is explained by the modifying influences during the summer months of the valley's eastern range, which protects it from the heat of the interior, and of the Pacific Ocean, which lies only a short distance to the west, the cooling breezes of which, modified by

the intervention of the Santa Cruz range, prevail throughout the valley during that season of the year; while the cold of winter is greatly tempered by the San Francisco Bay, which reaches into the northern portion of the valley, and the Santa Cruz Mountains, standing as a barrier to the ocean fogs and high winds.

Horticulture is the leading industry in the valley, and it is doubtful if there is a section of similar area in all the world that produces so many kinds or so vast a quantity of fruits. The normal prune crop alone ranges from 90,000,000 to 120,000,000 pounds dried, while the 19,000 acres in apricots, the 7000 in pears, 5000 in peaches, 5000 in cherries, and several thousands in plums, apples and other fruits, enormously swell the fruit production; of grapes there are 12,000 acres, and of walnuts nearly 6000 acres. The valley produces about 42 per cent of the State's prune crop and about 50 per cent of the State's dried apricot production.

Of the 40 fruit canneries in Santa Clara County 23 are located in and near San Jose, and of the 30 dried fruit packing houses, one-half are in this city. During the peak of the season from 15,000 to 20,000 men and women are engaged in the canneries and packing houses and in the many drying grounds. The county pack of canned fruits, berries and vegetables averages annually more than 3,000,000 cases of two dozen quart cans per case, or a total of 150,000,000 cans, and at 20 tons per carload approximately 9000 cars are required to load the pack. One can company in this city manufactures and distributes 250,000,000 cans annually, and a large quantity is manufactured by a second local company. Another local fruit product is jams, jellies and fruit juices, which find markets in all parts of the United States. The largest manufactories in the United States of orchard and fruit handling machinery, irrigation pumps and engines, orchard sprayers and cannery equipment are located in San Jose. In city and county there are more than 500 factories, large and small, of numerous kinds.

San Jose is served by the Southern Pacific and the Western Pacific railroads; an average of 30 Southern Pacific passenger trains run daily each way between San Jose and San Francisco; auto stages and trucks operate scheduled lines from San Jose to all parts of the State, and Alviso and South Port provide water transportation to Bay points for many products.

San Jose has been growing steadily for several years past, in population and in business. It has overgrown its official municipal lines on all sides; its manufactural and commercial interests are rapidly expanding, and several new residential subdivisions contiguous to the city are being built up with attractive homes. Building permits since 1920, within the official lines only, up to January 1, 1929, were \$29,655,535. Permits up to July 1, 1930, or the first six months of 1930, were \$1,889,030. Residence and business construction outside these lines but within the city as a whole have kept pace with inside construction.

Bank clearings in 1920 were \$116,995,085; in 1928 they were \$174,363,529; in 1929 they were \$190,592,949, or a gain of \$16,229,420. Bank debits increased from \$308,576,254 in 1925 to \$361,203,370 in 1928, and in 1929, \$386,438,627, or a gain of \$25,235,257 during 1929.

The facilities for education provided by San Jose and Santa Clara County are prominent factors in inviting students and families here from all parts of the country. In this city are the State Teachers and Junior Colleges, senior high schools, and evening high school, two junior high schools, 12 grammar schools, two secretarial schools, and several Catholic schools; at Santa Clara is the University of Santa Clara, and at Palo Alto is Stanford University; there are three military schools in the county, and several private schools; nine high schools, 71 grammar schools, a dozen or more kindergartens and a number of evening schools. Lick Observatory, at the summit of Mt. Hamilton, near San Jose, is a department of the University of Cali-

fornia. San Jose has a fine public library; a county library is located in this city, and there is here also one of the best law libraries on the Pacific Coast.

No part of California offers more attractions for the tourist than Santa Clara Valley. The State highway, coast route, from San Francisco to Los Angeles traverses the entire length of the valley, through San Jose; and another paved highway connects San Jose with the route south through the San Joaquin Valley and with the route north and east through Stockton and Sacramento; a branch of the State highway connects Oakland and San Jose, and another, one of the most picturesque drives in the State, places this city within an hour and a half of Santa Cruz, Capitola and other coast resorts. From San Jose paved roads radiate in all directions throughout the valley, foothills, mountains and forests. The State Redwood Park of 10,000 acres lies just over the western summit, in Santa Cruz County; and at the highest point in the Mt. Hamilton range, east of San Jose, is the famous Lick Observatory, reached by a winding road through ever changing scenery. Alum Rock Park, with its many mineral springs, natatorium and plunge, seven miles from the city, in the eastern foothills, is reached both by electric line and a fine paved road. The San Jose Country Club has a club house and attractive golf course in the same foothills, overlooking the valley; the Hill View Golf Club has an attractive club house at its golf course, located a few miles from this city toward Evergreen, and there are several other golf courses in the county. San Jose is provided with four first-class hotels, and several others, small but excellent. The city has eight theatres. All church denominations, benevolent societies, civic, service and women's clubs, are represented here, and the city is pre-eminently one of attractive homes.

Because of its equable climate, scenic attractions, varied fruit productions, and many other desirable features, Santa Clara Valley is known as "The Valley of Heart's Delight." To the home seeker and to the investor it offers pleasant living and satisfactory returns, and to the tourist delightful trips and enjoyable experiences that will linger long in memory.

Subscribe for Your Own Home Morning Paper

IT is full of the best home and telegraphic news. It is free from sensational, objectionable matter. It is clean, wholesome and adapted to every member of the self-respecting family. You get it at the time of day when it is most acceptable—when preparing for the day's duties and the day's purchases. It has Aunt Polly's page for the children; sports for the young people; social doings for the ladies; financial matter for the men and shopping news from all the stores for all.

NAMES APPEARING IN BLACK LETTERS

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

EVERY STORE

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for.

The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

WATER

*Where a Dependable Water Supply Is Imperative the
Solution Is*

Western Gravel Protected Wells

The use of these wells by the largest municipal and industrial water consumers is their best recommendation. Before commencing your water development program, investigate the results obtained by us under unusual and difficult conditions.

WESTERN WELL DRILLING CO., Ltd.

522 West Santa Clara Street

POLK'S SAN JOSE

Directory of Householders, Occupants of Office Buildings and Other Business Places

Including a Complete

Street and Avenue Guide

1931

COPYRIGHT, 1930, BY R. L. POLK & CO. OF CALIFORNIA

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled following the Named Streets.

The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.
